 ५६. $\frac{1}{x^{57}} = x^{-57}$
 $\frac{d}{dx} x^{-57} = -57x^{-58} = -\frac{57}{x^{58}}$
 ५७. $\frac{1}{x^{58}} = x^{-58}$
 $\frac{d}{dx} x^{-58} = -58x^{-59} = -\frac{58}{x^{59}}$
 ५८. $\frac{1}{x^{59}} = x^{-59}$
 $\frac{d}{dx} x^{-59} = -59x^{-60} = -\frac{59}{x^{60}}$
 ५९. $\frac{1}{x^{60}} = x^{-60}$
 $\frac{d}{dx} x^{-60} = -6$

1. The first thing I noticed when I stepped out of the plane was the humidity. It was a warm blanket, wrapping around me in a way that felt both comforting and overwhelming. The air was thick with the scent of tropical flowers and the distant call of birds.

2. As I walked through the airport, I saw people from all over the world. There were families with children, couples holding hands, and solo travelers looking a bit lost. I felt a sense of connection to all of them, even though I didn't know their names.

3. The hotel I stayed at was beautiful. It had a large pool with a view of the ocean, and the rooms were clean and comfortable. I was lucky to have a room with a balcony overlooking the sea.

4. One of the best things about the trip was the food. I tried so many different dishes, from spicy curries to fresh seafood. The flavors were incredible, and I loved sharing them with my friends.

5. I also enjoyed the beaches. They were beautiful, with soft sand and clear water. I spent a lot of time relaxing on the beach, reading a book and listening to the waves.

6. The people I met were so friendly. They welcomed me with open arms and showed me all the best spots in the area. I felt like I had found a new home for a few days.

7. Overall, it was a fantastic trip. I had everything I needed for a perfect vacation: good weather, great food, and amazing people. I can't wait to go back soon.

7.1. *Case 1*

Subject: Mathematics

Date:

Chapter: Algebra

Topic: Linear Equations

Section: One Variable

Sub-section: Word Problems

Problem: Find the value of x.

Given: $2x + 5 = 15$

Solution: $2x + 5 = 15$

$2x = 15 - 5$

$2x = 10$

$x = \frac{10}{2}$

$x = 5$

Answer: $x = 5$

Check: $2(5) + 5 = 15$

$10 + 5 = 15$

$15 = 15$

Verified.
